What is V2X (Vehicle to Everything)?

Comprehensive vehicle and traffic safety

Accelerates autonomous driving

Allows vehicles to communicate with each other V2V and the wider transport ecosystem V2N, V2I

C-V2X is a unified technology platform including both:

Short range direct communications (LTE-V2X PC5)

> Low-latency, direct safety, communication to work without network coverage

Can operate without a SIM or network assistance

Long range cellular network communications (LTE-V2X Uu)
