

# 5G Automotive Association, **pioneering digital transformation** in the **automotive industry**

Maxime Flament, CTO 5GAA

Learn more at  
[WWW.5GAA.ORG](http://WWW.5GAA.ORG)

**5GAA brings together automotive, technology and telecommunications companies to work closely together to develop end-to-end solutions for future mobility and transportation services**

## **AUTOMOTIVE INDUSTRY**

Vehicle Platform, Hardware  
and Software Solutions

## **TELECOMMUNICATIONS**

Connectivity and Networking  
Systems, Devices and  
Technologies

End to end solutions for intelligent  
transportation, mobility systems  
and smart cities

# 5GAA: A Global Cross Industry Association

## September 2016

- “Audi, BMW Group, Daimler AG are teaming with Ericsson, Huawei, Intel, Nokia, and Qualcomm to create the 5G Automotive Association (5GAA), which will help develop, test, and promote 5G standards”
- “Scope of the alliance is focused on bringing connectivity solutions to market addressing technical, business, and regulatory challenges”

## Q2 2018

- › 5GAA unites 80+ members working together to:
  - Deliver innovation for road safety, connectivity and sustainability
  - Accelerate cooperative, connected, automated mobility
  - Develop 360° solutions for SMART mobility services
  - Pave the way towards 5G mobility

# Looking 18 months back...

Establish  
5GAA

# Set up 5GAA - Our Organizational Structure

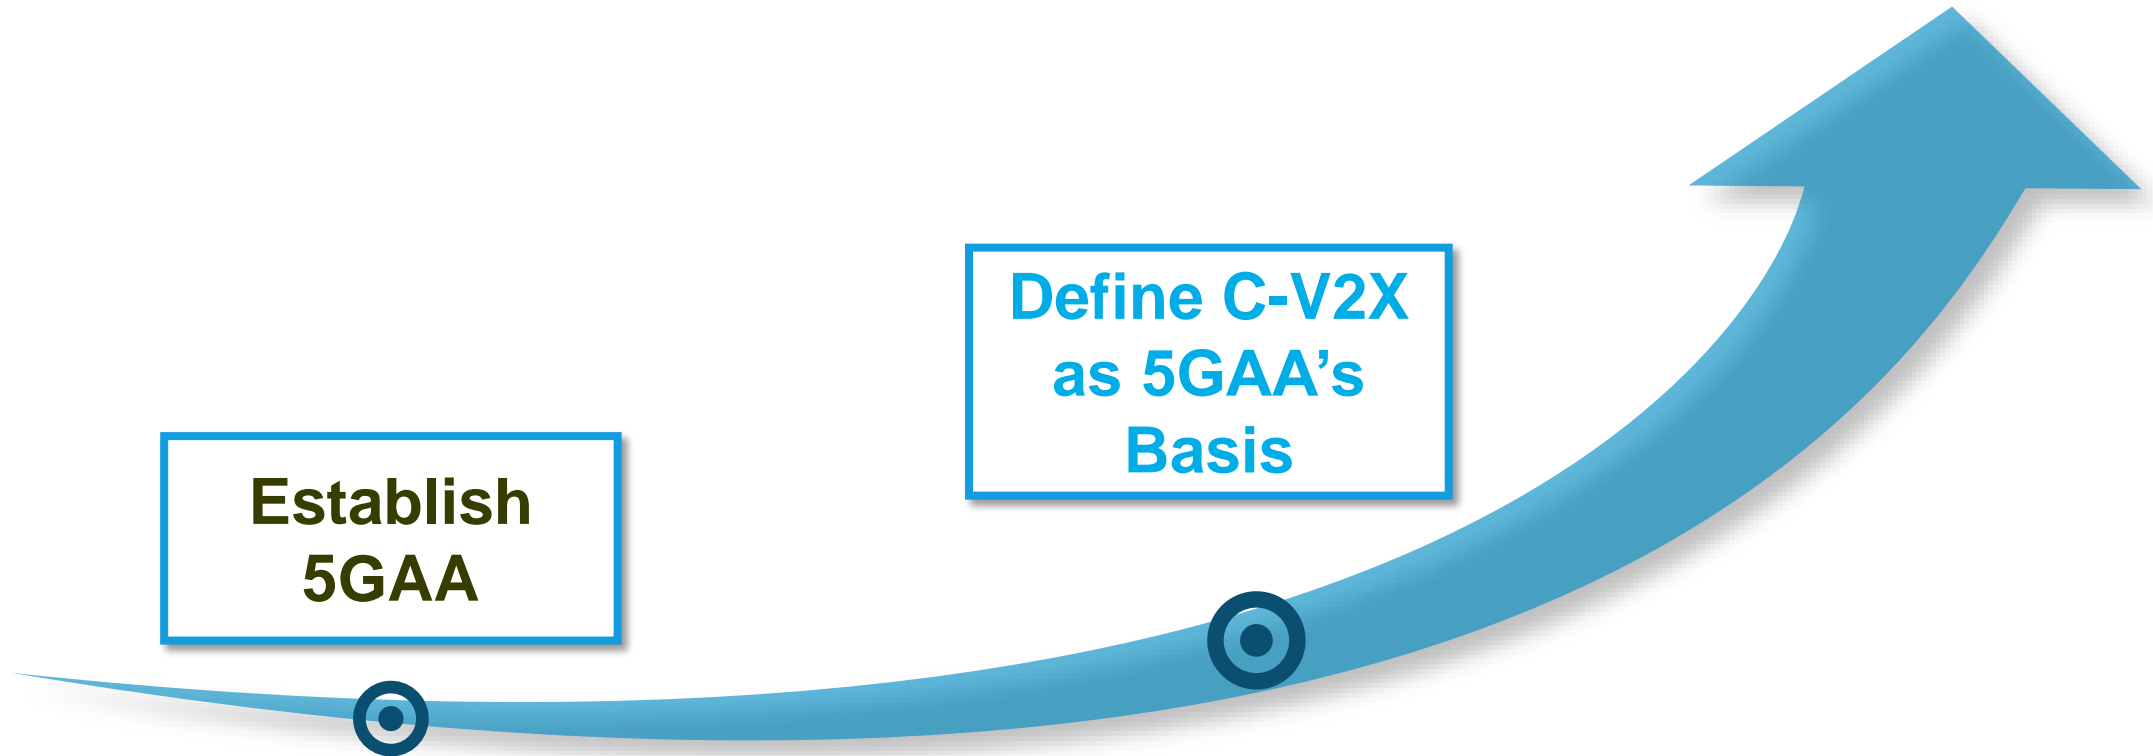

# Liaisons with regulators and organizations

- MoU with European Automotive Telecom Alliance (EATA) – Feb 2017
- MoU with Next Generation Mobile Networks (NGMN) – Feb 2017
- MoU with Alliance Global TD-LTE Initiative (GTI) – Feb 2017
- Market Representation Partner (MRP) in 3GPP – April 2017
- Round Table with Chinese Government during Mobile World Congress Shanghai – June 2017
- MoU with China IMT 2020 – November 2017
- Round Table with European Road Operators Munich – February 2018
- Round Table with Telematics Industry Application Alliance (TIAA) – March 2018

# Looking 18 months back...

# What is V2X (Vehicle to Everything)?

Comprehensive  
vehicle and traffic  
safety

Enabling  
autonomous driving

Allows vehicles to  
communicate with  
each other (**V2V**)  
and the wider  
transport ecosystem  
(**V2N**, **V2P**, **V2I**)

# Why Cellular-V2X (C-V2X)?

C-V2X is a unified technology platform including both:

- Short range direct communications (LTE-V2X PC5)

Low-latency, direct safety, communication to work without network coverage

Can operate without a SIM or network assistance

- Long range cellular network communications (LTE-V2X Uu)

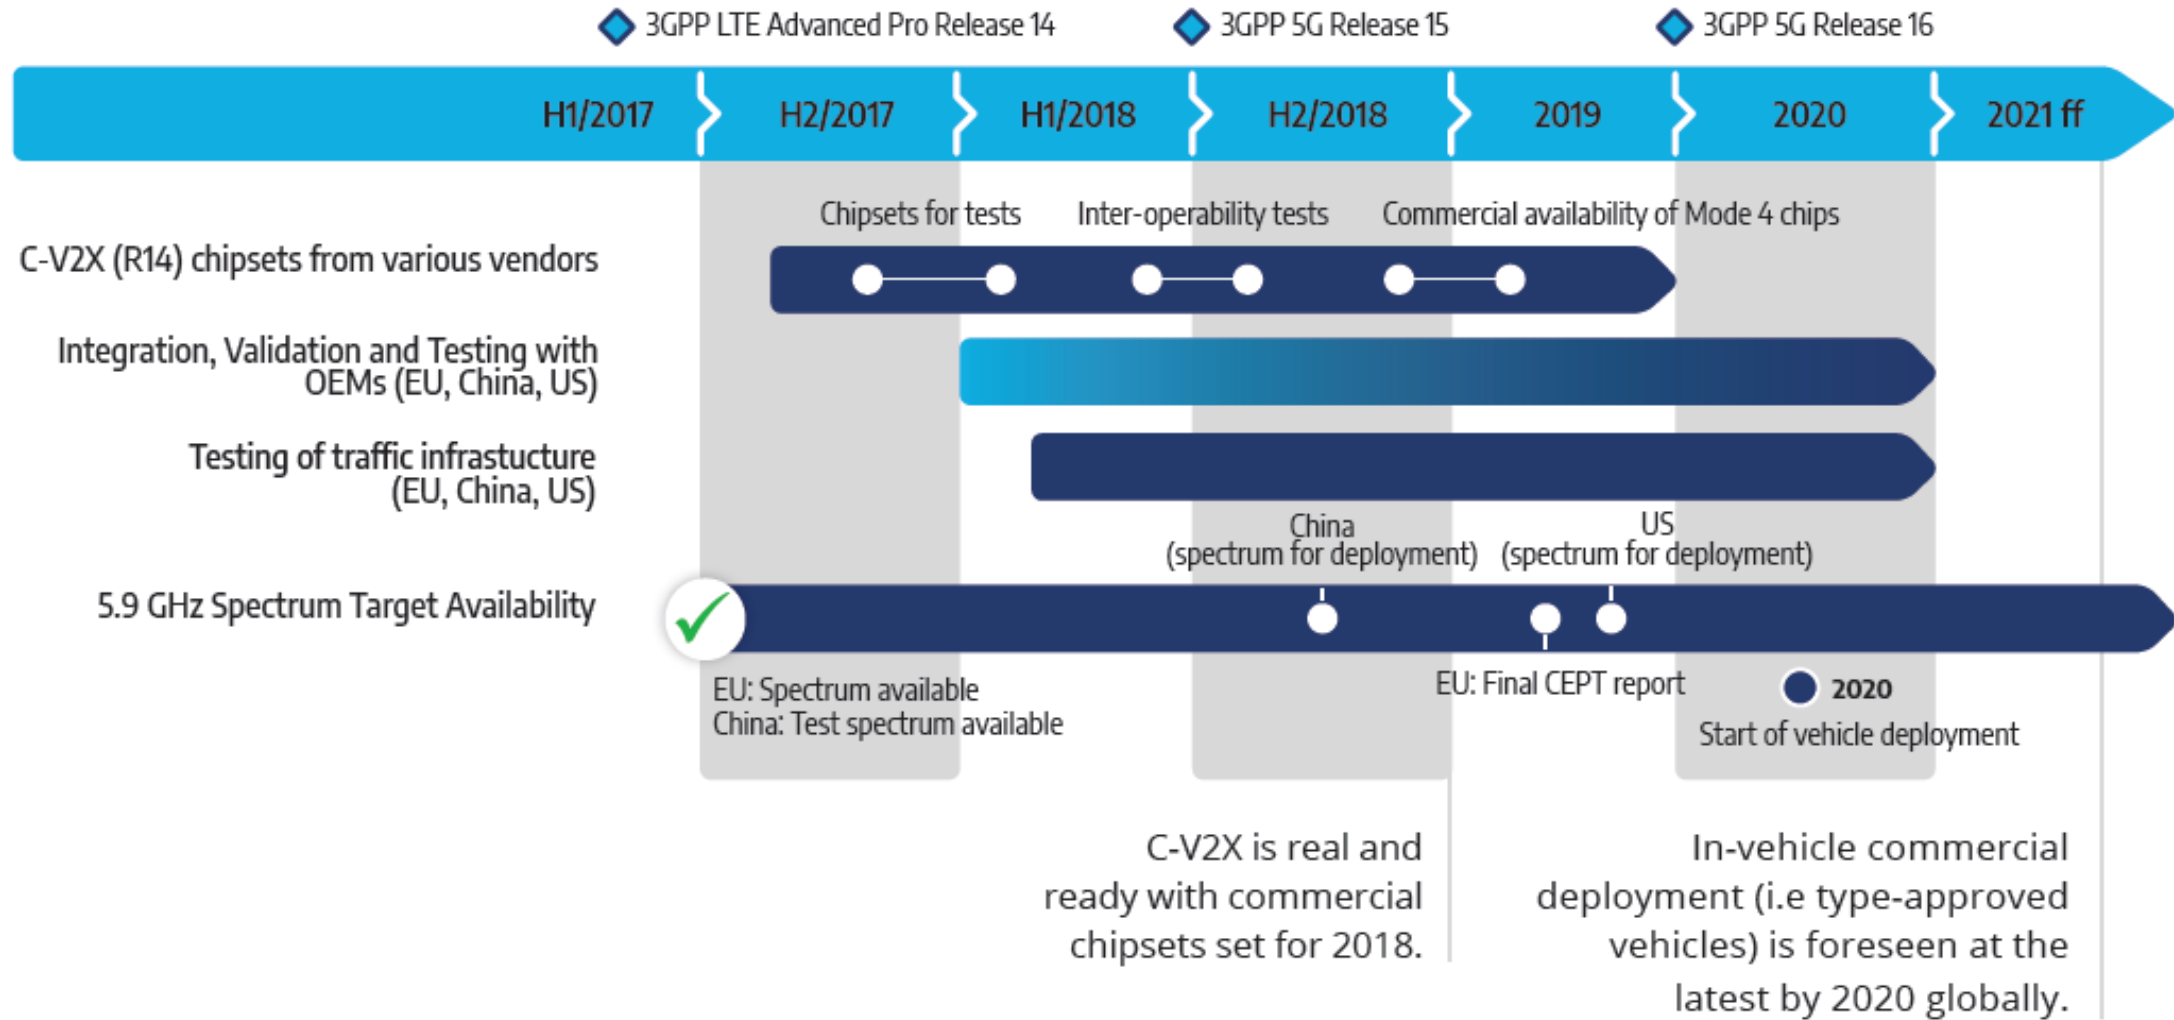

C-V2X illustrated with "slippery road" use case

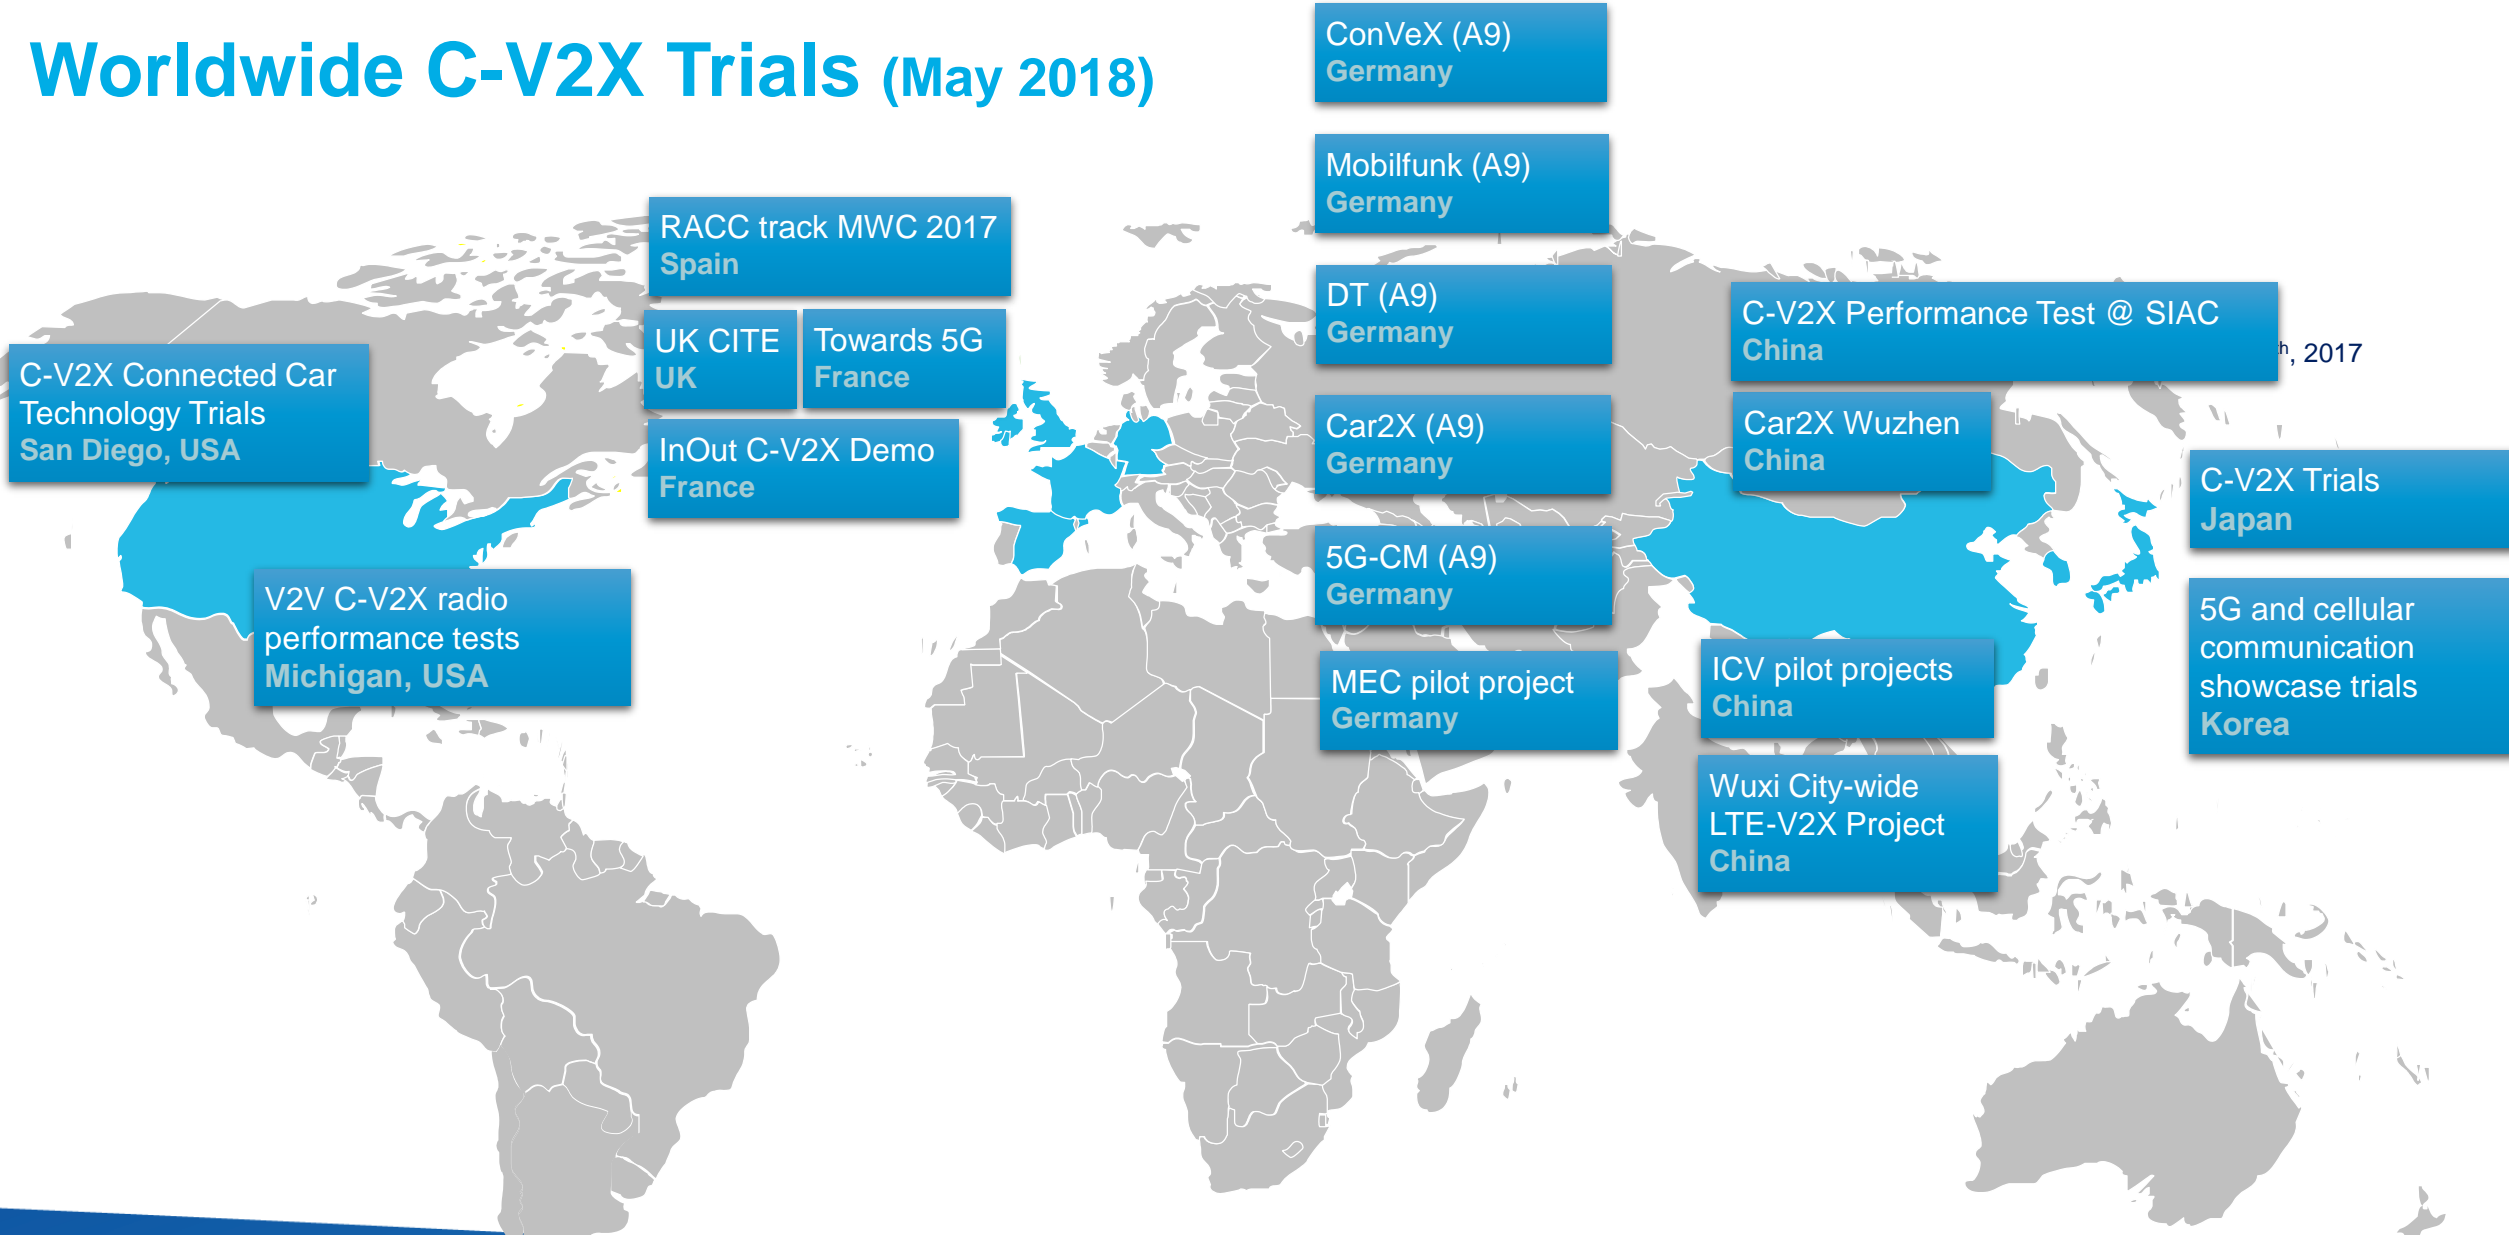

C-V2X long range cellular network communications

C-V2X short range direct communication

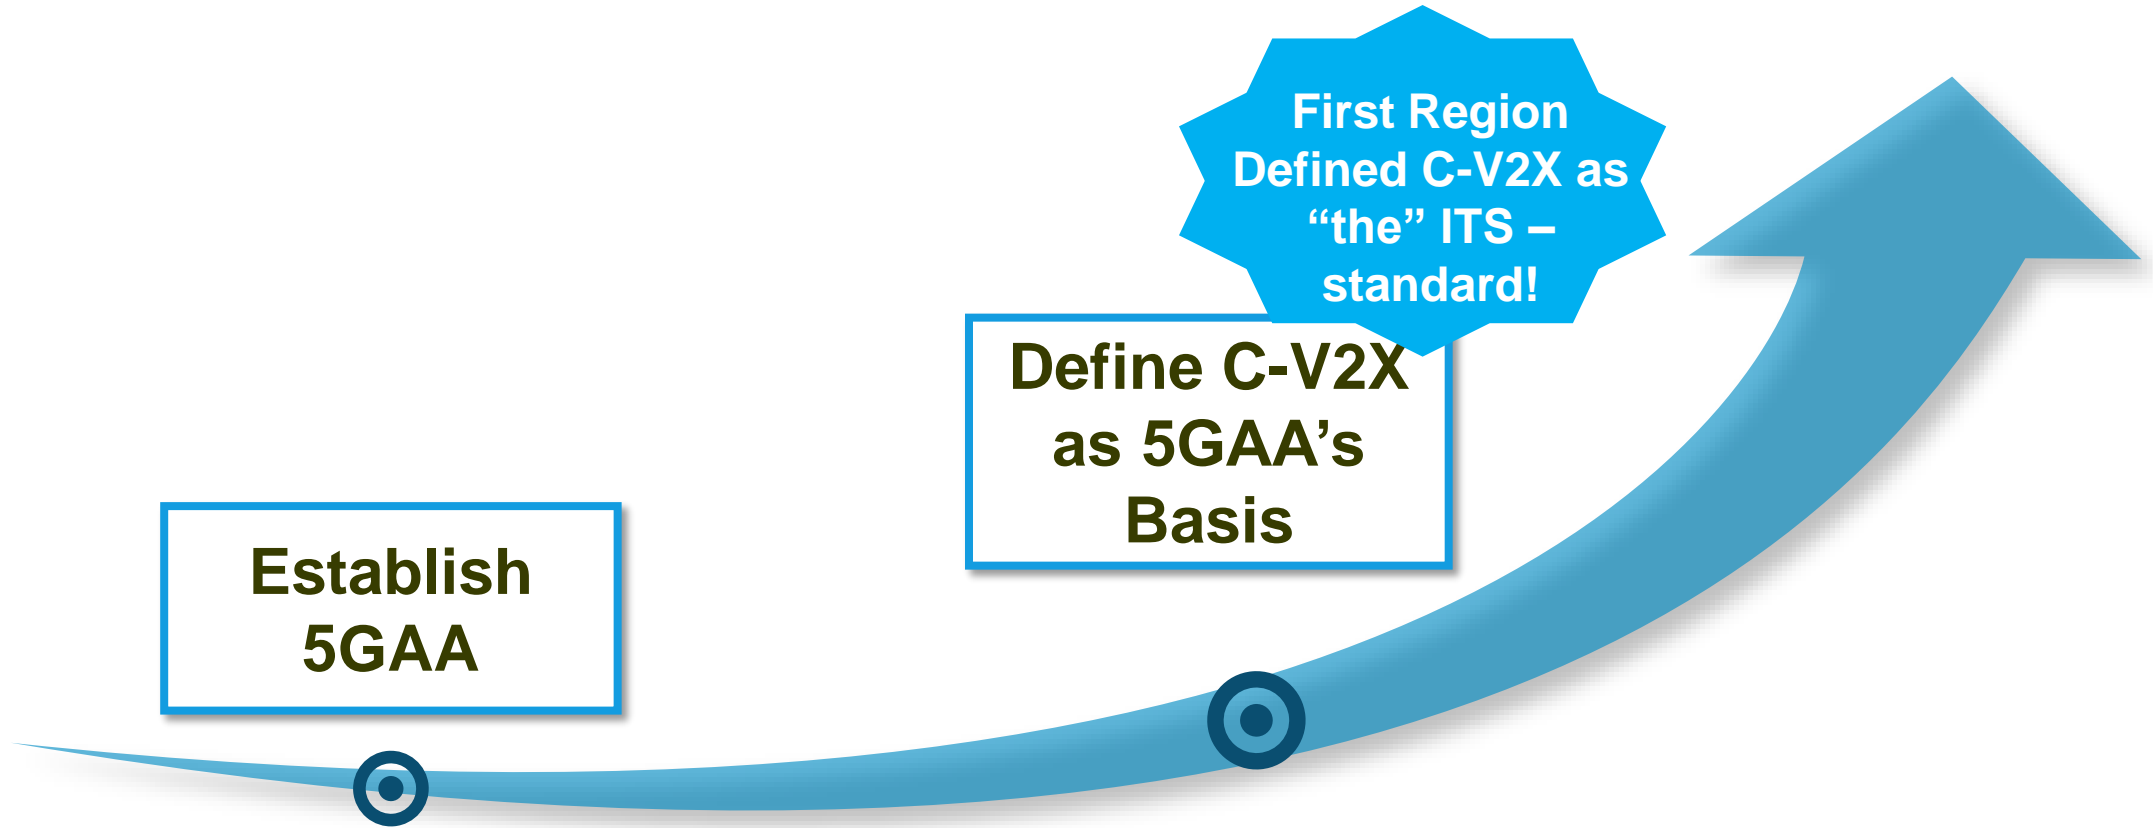

# Timeline for deployment of C-V2X (V2V/V2I)

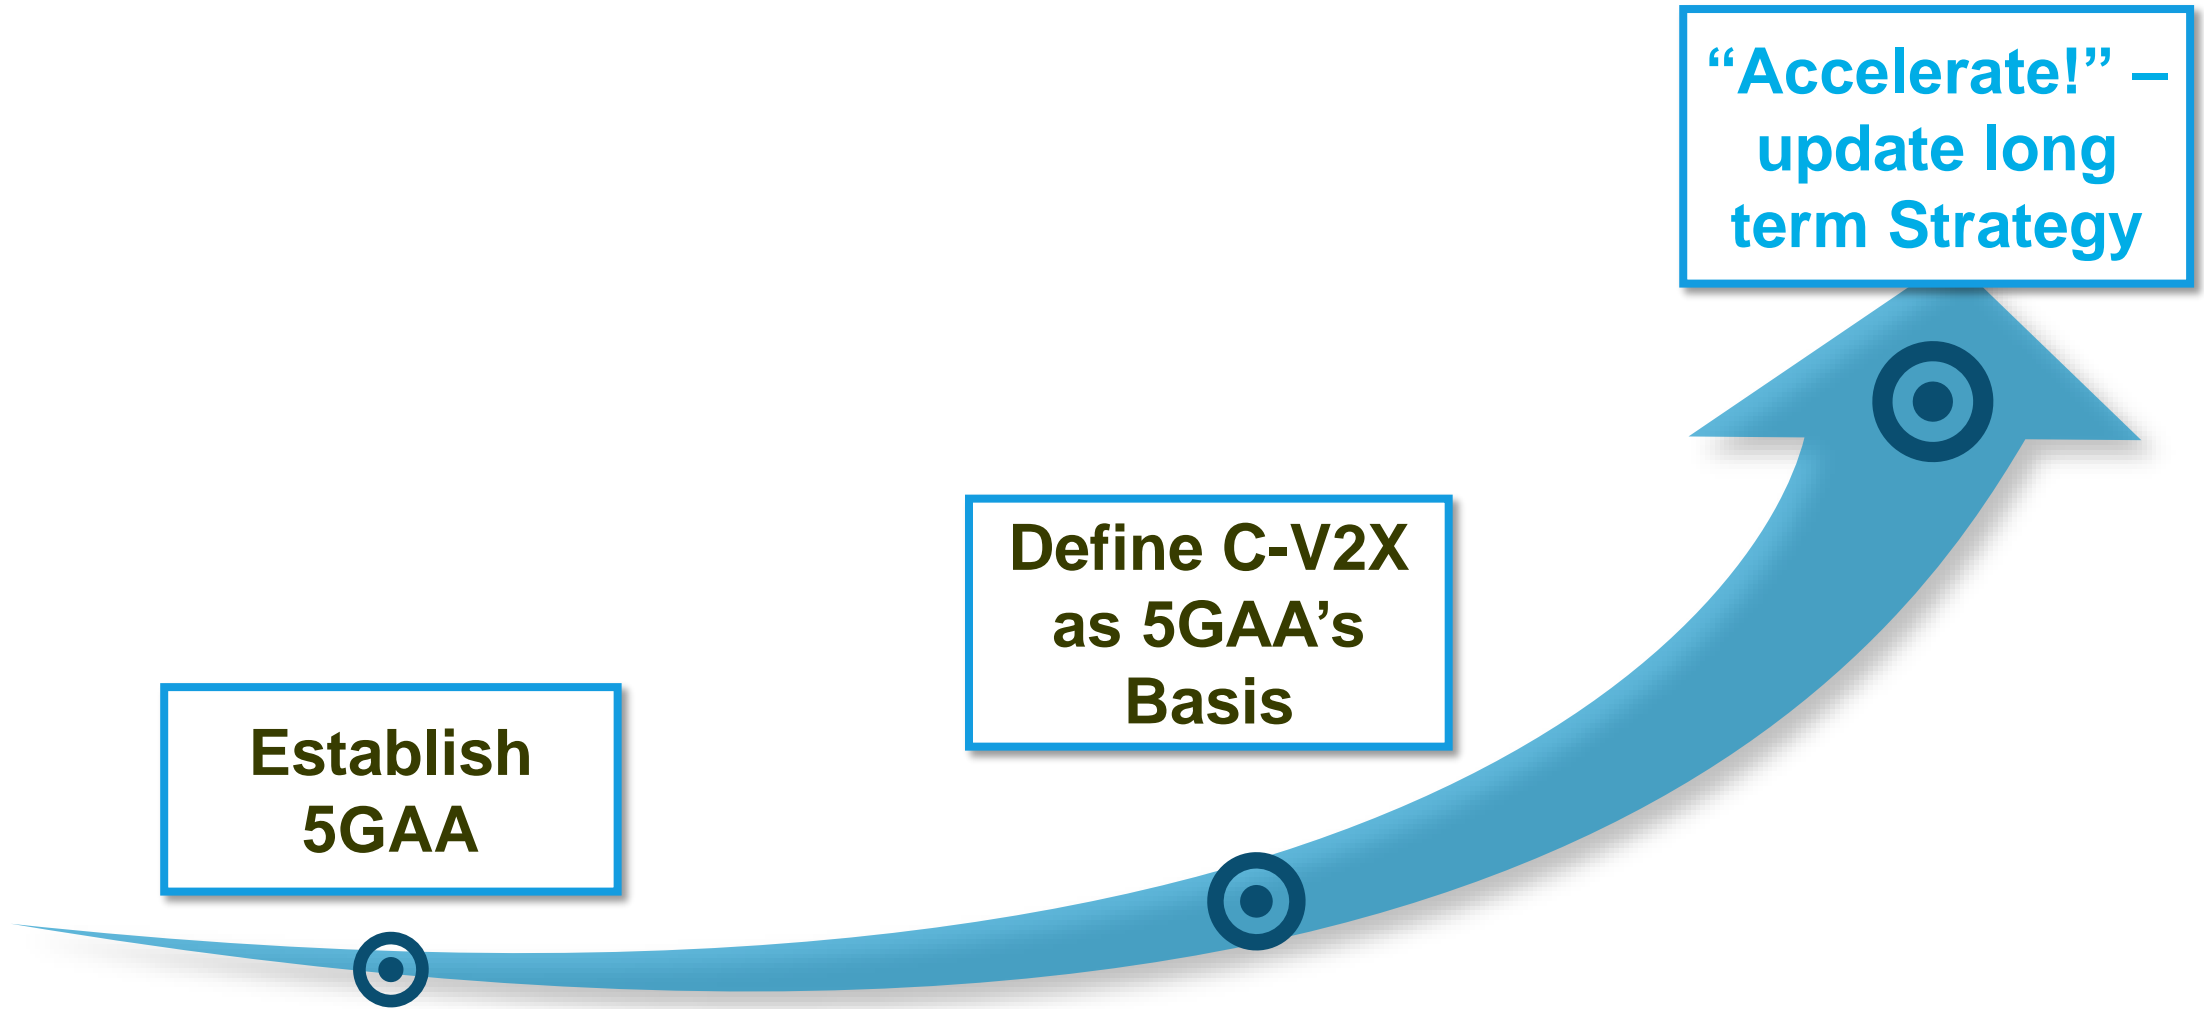

# Worldwide C-V2X Trials (May 2018)

# Looking 18 Months Back...

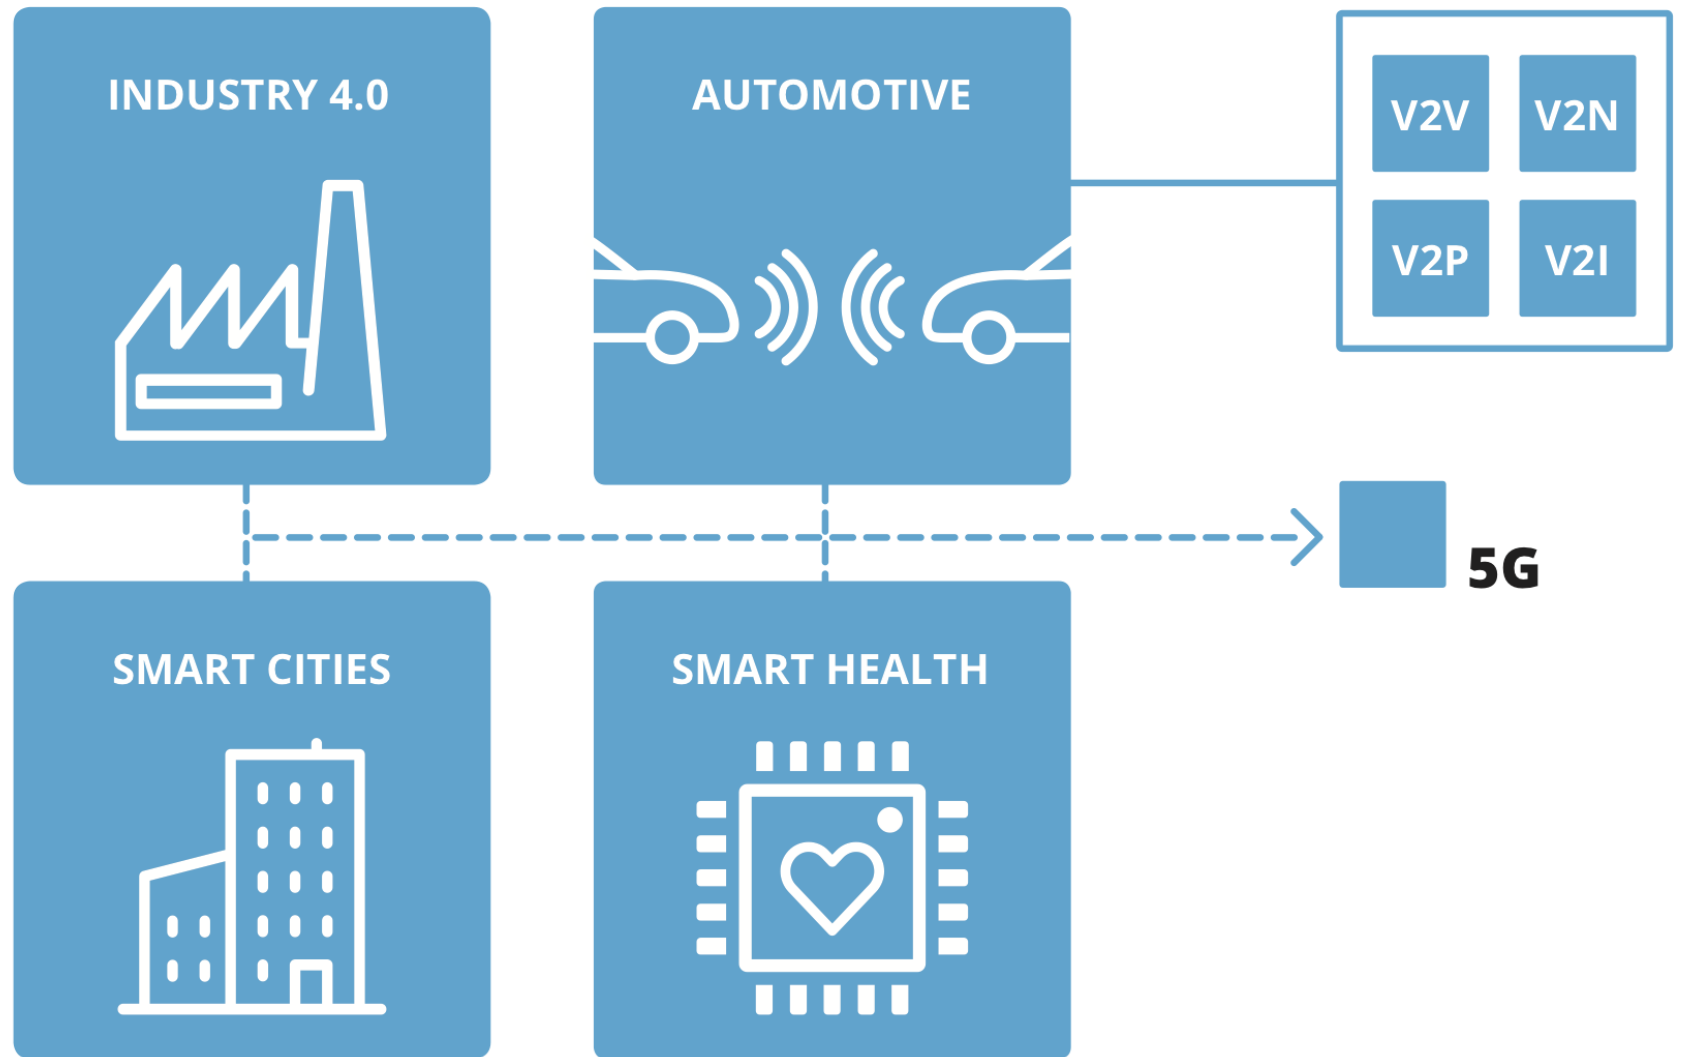

# And now? – Accelerate!

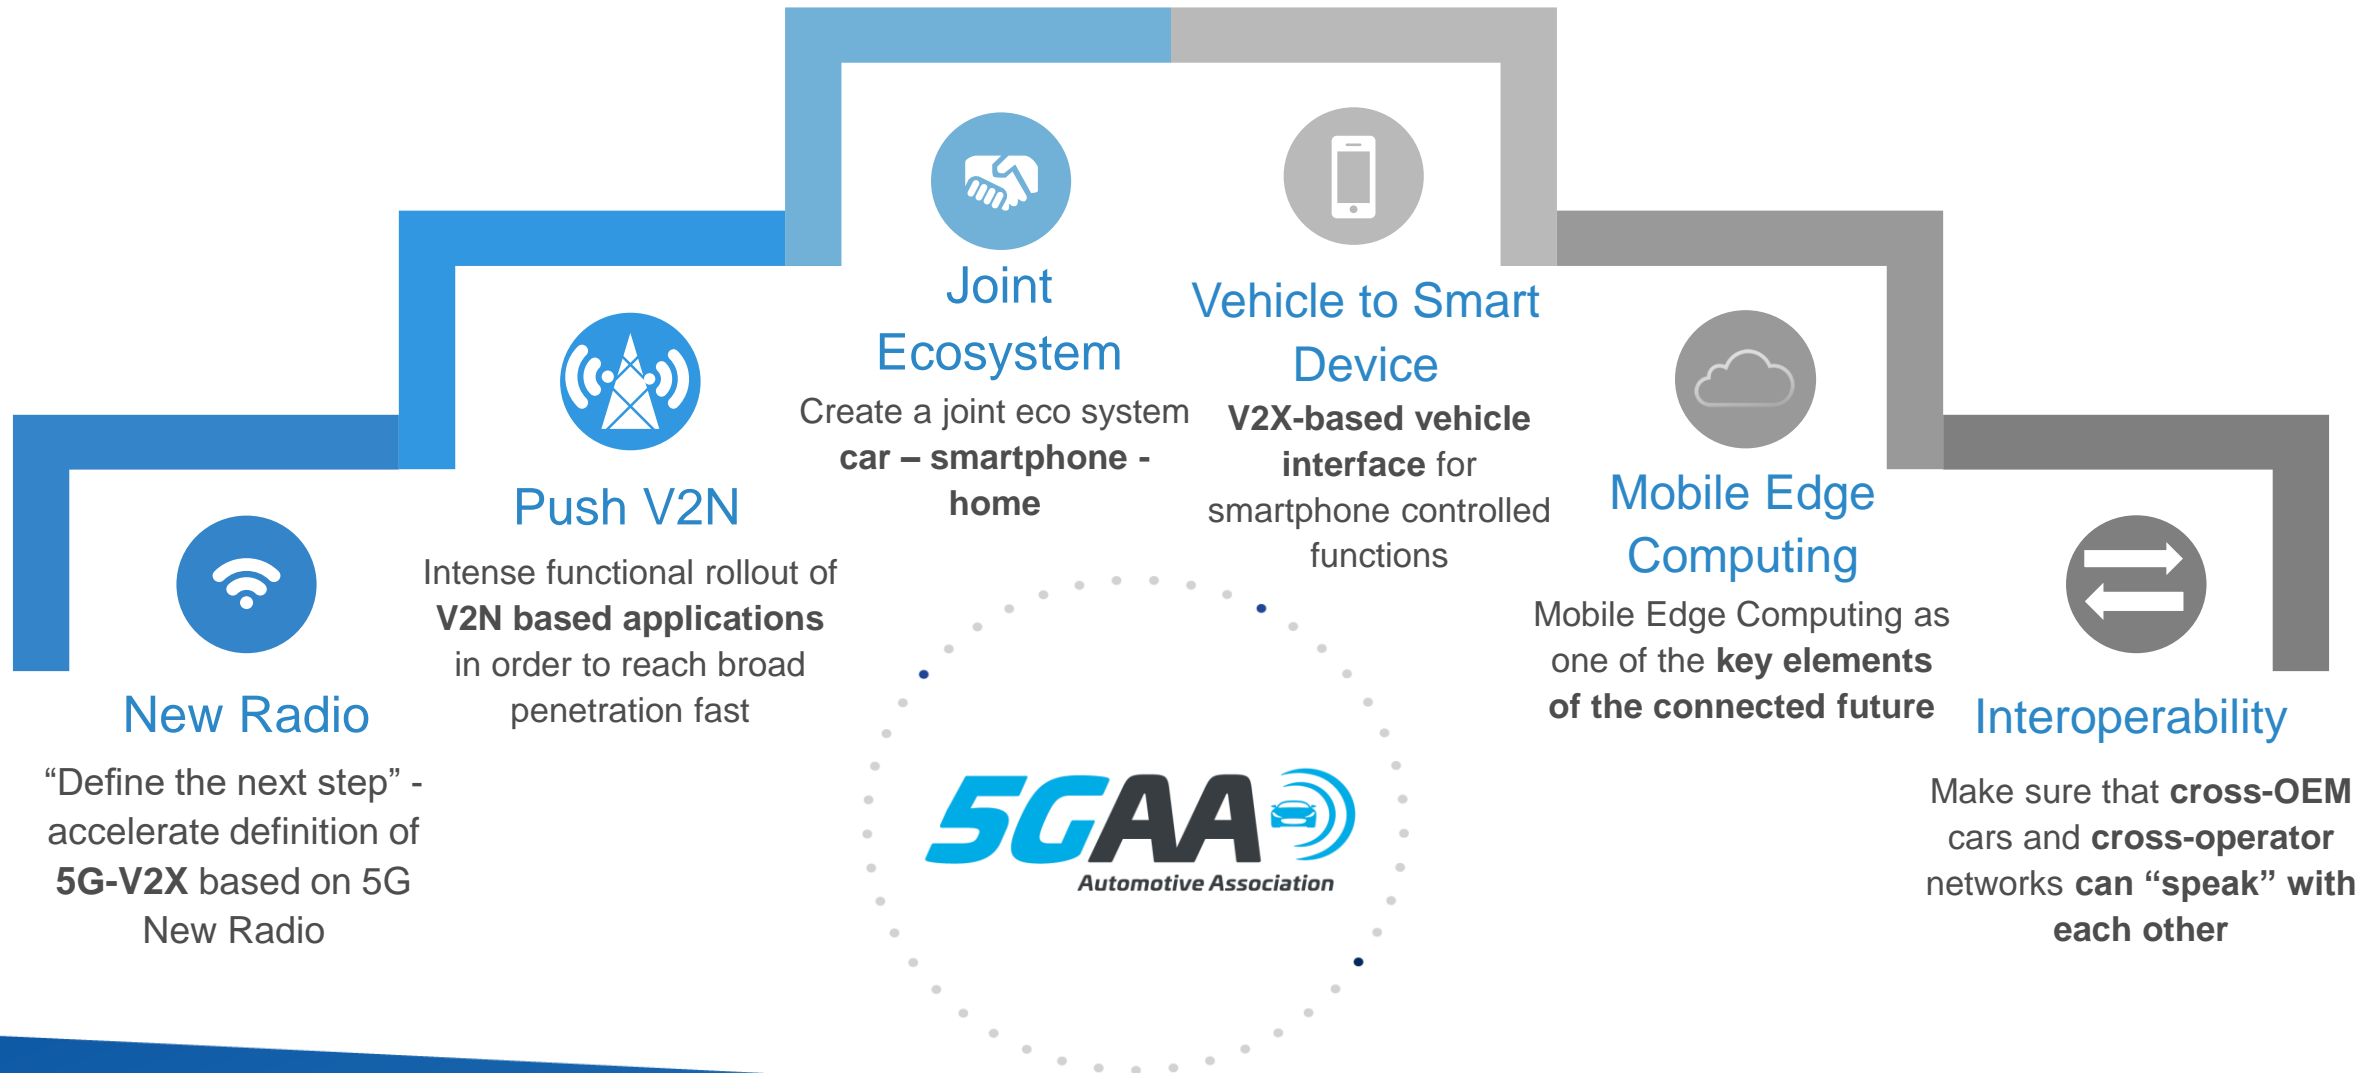

# 5G for Major Industry Verticals

C-V2X and its evolution to 5G V2X will foster synergies between the automotive industry and other verticals which are moving to 5G

# Our updated Strategy

# NEW: Safety of Life Study

- Aim: explore the impact of different technical solutions for Cooperative Intelligent Transport Systems (C-ITS) communication solutions on EU road safety over time.
- Compare impact of LTE-PC5, LTE-Uu, and 802.11p
- Two major potentially live saving services:
  - Red signal violation/intersection safety,
  - Vulnerable Road User (VRU) protection.
- Highest impact are on LTE-Uu with 114,066 avoided fatalities and serious injuries by 2040
- Combined deployment of PC5 and Uu is very likely
- 802.11p shows lower impact as VRU protection is most likely not supported through smartphones

## Safety of life study

Final Report: Issue 4

Report for 5GAA

ED 11290 | Issue Number 4 | Date 05/07/2018
